TOWN OF MEDLEY

NW 106th STREET ROADWAY IMPROVEMENTS PROJECT (FROM NW 116th WAY TO NW SOUTH RIVER DRIVE)

Following the Town's primary mission to safeguard the public, promote the health, safety and welfare of residents and businesses, the Town of Medley is communicating that it is submitting an application for a CDBG-MIT grant to fund the improvements to the NW 106th St from NW 116th Way to NW South River Drive area. Improvements include elevating roadways, roadway reconstruction including the addition of a new traffic lane and shoulder to improve roadway safety, new culverts, signing, pavement markings and new drainage system to alleviate the loss of road access and floodwater inundation impacts.

This project is an effort led by the Capital Improvement Projects and Economic Development team to mitigate any damages and future loss of property. It is considered a strategic investment to minimize risks and reduce losses on a service area with over 60% of low to mid income residents.

As shown in previous storm events, this area has been severely disrupted with severe flooding and roadway failures. When flooding occurs, residents and businesses in this area are trapped or prevented from operating business as usual. Frequent prolonged inundation has damaged roads, infrastructure, businesses, and homes. During these flooding events, emergency response time are also increased, escalating the risk to the residents.

Investing in mitigation projects of this nature will improve the Town's resiliency by protecting our residents and will enhance the CDBG-MIT community lifelines of safety and security, transportation, and health and medicine.

The public may provide public comments by submitting same, until August 27, 2021, to the Capital Improvements Projects and Economic Development Department via email at ABarcelo@townofmedley.com or via telephone communications at (305) 887-9541 ext. 167.

This Notice is dated at Medley, Miami-Dade County, Florida this 12th day of August 2021.

Victoria Martinez, FRP, CMC, Town Clerk
